

Freestanding Ladder

Technical requirements

TECHNICAL RIDER / EN

29.09.2026

Stage area	At least 4 × 3 m.
Clear height	At least 3.80 m.
Floor	Dance floor or a similarly smooth, firm surface. Level, clean and dry.
Rigging point	Not required.
Sound & lighting	Music is provided as an MP3 on USB. Stage lighting preferred; natural light is possible.

Backstage

A sheltered backstage room or tent close to the stage is required, along with a nearby bathroom with water access. Please contact me in advance if these facilities are unavailable.

Optional: living statue

A living statue appearance at the entrance before the act is possible by agreement. Duration depends on the venue: 10-20 minutes.

Setup and running order are agreed with the venue's technical team before the performance.
